## Testimonial

I have known Dr. Peter Winkler since 2007.

I have had the opportunity to work closely with him on two visits to Bydgoszcz, in 2007 and 2008. During these visits I have worked with him in the surgery of a number of complex skull base tumours, with excellent results. These surgeries were done in collaboration with Dr. Andrew Fishman, ENT / Skull base surgeon from Chicago and Dr. Jozef Mierzwinski, ENT / Skull base surgeon from Bydgoszcz.

Dr. Winkler has since then visited our department at Cochin, India in 2010, and has spent a month with us as an observer. During this time he had attended the national skull base surgery conference and the Indian-Japanese neurosurgery conference that were held at the same time.

Peter is a skilled surgeon, eager to learn and constantly attempting to improve his skills and learn new techniques, with the intention of introducing these in his practice. He is keen to participate in academic programs that would better his knowledge and skills.

It has been a pleasure to know and to work with Peter. I am happy to hear that he is considering a position of manager of a neurosurgical department, and I am sure he will do very well in that position. I wish him all the best.

Please do not hesitate to contact me if you require any further information.
